5.50 g/l

pH

3.25

CLOSURE

Stelvin

TASTING NOTES

A fresh rosé ideal for a wide variety of dishes. A wide and refreshing wine, with aromas of cherries, watermelon and fresh herbs.

FOOD PAIRINGS

Served chilled, this wine is very refreshing and surprisingly versatile. It may be drunk as a apéritif or it can go with an impressive array of foods, especially salads, seafood as well as pork or chicken.

VINEYARDS

This wine is a blend of Tempranillo and Syrah. It was made using a combination of direct press and the saignée method and vinified in stainless steel tanks. The juice is then allowed to ferment alone at a low temperate (18-20°C/65-68°F) to preserve the maximum aroma.
